

COLONEL BACKS
UP HIS MANAGEREndorses Challenge to McKinley
for Primary Ballot.

WITHDRAWAL OF PATRONAGE

Roosevelt Refers, in Letter to Senator Dixon, to President Taft's Recall From the Senate of Nominations for North Carolina Federal Offices and Infers Such Action Was Taken to Provide an "Example."

Washington, March 11.—Copies of a letter on the subject of preferential presidential primaries, written by Colonel Theodore Roosevelt to Senator Joseph M. Dixon, director of the Roosevelt national headquarters here, were given out here by Senator Dixon. Colonel Roosevelt apparently endorses Senator Dixon's challenge to Director McKinley of the Taft headquarters for such primaries and scores Mr. McKinley's reply that "he did not favor changes in the rule of the game while the game was in progress."

Colonel Roosevelt refers to the nominations of federal officeholders which President Taft recently withdrew from the senate and infers that the president's action was taken to provide an "example" for the politicians of the state.

"Practically the entire body of professional politicians is pitted against us in this contest," the colonel wrote, "and in every state and in every congressional district they are led by the officeholders who, with the example before them of what was done in connection with the nominations for local officers in North Carolina, are working as we have rarely seen them work in American political life."

Colonel Roosevelt's letter in part was as follows:

Ascertain Wishes of Voters.

"I have received your letter of March 6, stating in your opinion it is of vital importance to the success of the Republican party in the November elections that the Republican national convention shall nominate the candidate whom the mass of Republican voters wish nominated, and therefore this sentiment should be given expression through preferential presidential primaries in the several states in order that the wishes of the voters may be ascertained before, instead of after, the nomination."

"I have also seen your correspondence with Mr. McKinley. You proposed to him that as far as possible the selection of the Republican candidate for the presidency should be determined by the voters of the party in the preferential presidential primaries. Mr. McKinley's answer is contained practically in one sentence in the letter sent you: 'I do not favor changes in the rules of the game while the game is in progress.'"

"The point of view contained in that sentence contains the issue within the Republican party at this time. We who stand for the progressive cause, for the cause of honest and genuine democracy, hold that a public contest between parties or within parties is not carried on as a game; it is not carried on for the purpose of winning prizes for the contestants or with a view to the personal wishes or welfare of any one man."

"We hold that it should be carried on for the purpose of ascertaining and putting into effect the will of the people, so that the people may jointly do for themselves what no man can do so well for them."

Objects to Tricky Methods.

"We hold that the laws that govern elections and govern party organizations should not be treated as rule, which are fit subjects for tricky manipulation by contestants for a prize."

"We hold that as far as possible these laws should be treated as rules to ascertain the will of those whom the public officials and party officials are supposed to represent."

"In sum, we hold that the object of this contest is not to secure rewards for individuals, but to secure the more effective government of the people, by the people and for the people."

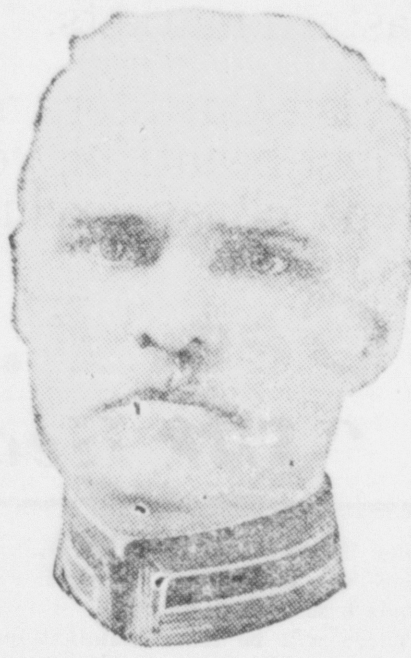

"Our opponents, on the contrary, take Mr. McKinley's view that we are engaged in a game in which the interests of the people, it is true, are at stake, but in which the people themselves are not to have their choice. Mr. McKinley's position was stated with frank cynicism by Congressman Campbell on behalf of the reactionary element in the Republican party, when in a recent speech in New Hampshire he is quoted as 'rousing the greatest enthusiasm by declaring that the Republican party does not believe in an appeal from the umpire to the bleachers.'"

"Mr. Campbell has simply stated more frankly the view held (as is evident by Mr. McKinley's statement) generally among our opponents. Their feeling is that politics is a game, that the people should simply sit on the bleachers as spectators and that no appeal lies to the people from the men who, for their own profit, are playing the game."

Darrow Trial Set for May 14.

Los Angeles, March 11.—Clarence S. Darrow, former chief counsel for the McNamara brothers, will be placed on trial May 14 on the charge of having bribed jurors in the case of the confessed dynamiter, James B. McNamara, now serving a life term in San Quentin prison.

Builder of Canal Finds Wilhelm Con-
versant With Work.

Berlin, March 11.—Lieutenant Colonel George W. Goethals, U. S. A., chief engineer of the Panama canal, was the guest of the emperor at luncheon. The empress, Princess Victoria Luise, the minister of marine, Admiral von Tirpitz, and the minister of public works, Herr von Breitenbach, also were present.

Colonel Goethals, in an interview, later praised the emperor as a pleasant host. In the discussion of the Panama canal he found that the emperor was surprisingly conversant with every detail of the work. "I was personally introduced to your steam shovel on the Northeast sea canal," the emperor explained. He praised the Panama construction, added Colonel Goethals.

TAFT RIDICULES
ROOSEVELT IDEASPlays Recall of Judicial Decisions
in Chicago Address.

Chicago, March 11.—In an address before the Swedish-American Republican league of Illinois President Taft assailed the new doctrines advanced by Theodore Roosevelt as "the beginning and manifestations of a despotism." The president was the chief speaker at the annual banquet of the league.

"Such a government," said President Taft, in discussing the recall of judicial decisions as advocated by Colonel Roosevelt in his Columbus speech, "would lack in uniformity of law, which is essential to justice, and would produce that confusion and those exceptions in the application of laws which are the beginning and manifestations of a despotism."

The president's speech at the banquet was supplemented by an important one which he delivered at the Union League club.

In the Union League club address he explained his stand on the enforcement of the Sherman anti-trust law, declaring that it was his intention to continue to put it into effect. He declared that he had been accused of injuring business through enforcing the law and said that instead of being injurious to commerce the law was a proper and beneficial guide to it.

President Taft in his banquet talk drew a sharp distinction between those he considered "real progressives" and "progressive extremists."

The president avowed himself to be a real progressive and pointed to legislation enacted during his administration as proof that he was.

EBERHART OFFERS SUPPORT

Minnesota Governor Favors Renomi-
nation of President Taft.

Chicago, March 11.—Governor Eberhart of Minnesota, who is an outspoken adherent of President Taft, held three informal conferences with the president and Secretary Hilges. All the conversation, with possibly ten minutes with Secretary Hilges, was in the presence of other politicians and was general in character.

Governor Eberhart, however, assured the president that there was much sentiment in his behalf in Minnesota and promised him anew his friendship and such efforts as he could consistently put forth to procure his renomination and re-election.

Steel Trust Also Will Allow Present
Wages to Prevail.

Ishpeming, Mich., March 11.—Announcement has been made voluntarily by the steel trust that the wages of all men employed underground will be left at present figures and the working day shortened to eight hours in all the Lake Superior region. This announcement, made by the Oliver Mining company, the mine branch of the corporation, affects, roughly, 10,000 men and will be applied to any man hereafter hired to work in the company's properties in the three Northwestern mining states, Minnesota, Michigan and Wisconsin.

GOVERNORSHIP
OF NEW YORKBoth Sides Seek Strong Men
to Head Ticket.

MAY DETERMINE PRESIDENCY.

Empire State Will Be Pivotal—Insurgents Distrust Political Machines of Both Parties—Senator Dixon Popular and Easily Accessible—Roosevelt and the Constitution.

By ARTHUR W. DUNN.

Washington, March 11.—[Special.]—The governorship of New York has become the most interesting political problem for both Republicans and Democrats next to the presidential contest itself. Leaders of both parties have assured me that the nomination of the right kind of man for governor will determine the electoral vote of the Empire State. They say that, no matter who may be nominated for president, a popular man in whom the people have confidence must be named for governor or their party cannot win.

Much of the conference between William Barnes, the Republican boss of New York, and President Taft was devoted to a discussion of the governorship and searching for the man who will win. The vice presidency, known to be very near the heart of Barnes if Jim Sherman wants the place again, was simply a secondary consideration to the governorship.

A Notable Change.

This condition shows a notable change. In the last three presidential campaigns the Republican presidential nominee has pulled the Republican candidate for governor through by the tremendous vote received in New York state. In each of these campaigns it had been claimed that if the presidential majority fell below 100,000 the candidate for governor would have been beaten. This year the Republicans want to nominate a man who will pull the presidential ticket through. And Democratic leaders are looking for the same sort of man. State political leaders are looking for the popular vote getter—the man who will give confidence to the people and help any Democrat who may be nominated for president to carry New York.

Senatorial Definitions.

Senator Poindexter of Washington was talking and Senator Bailey of Texas interrupted him. "I would not abuse the senator's courtesy," he said, "by making a Democratic speech even in an insurgent Republican's time. And I do not mean offense when I say insurgent Republican any more, than when I say progressive Democrat. I have a well defined idea of the difference. A progressive Democrat is a Democrat who does not believe in the old principles of his party, and an insurgent Republican is a Republican who does not believe in the present leaders of his party."

"The insurgent Republicans," replied Poindexter, "have no greater distrust of the present time leaders of the Republican party than they have of the present time leaders of the Democratic party."

What Roosevelt Has Done.

One of the warm admirers of Theodore Roosevelt, who does not follow him to the end of the Columbus string, said: "Roosevelt has made Taft stand for the constitution, which has now become the fight. It is now a fight as to whether we want the constitution, and Taft's personality is no longer an issue. And I am keeping out of the fight."

Dixon Is Popular.

Senator Dixon, who has been selected as the Roosevelt campaign manager, was one of the most popular men of the outfit at the Republican headquarters in Chicago four years ago. Everybody could see Joe Dixon, and for days and days he was about the only man one could see. It is a sure thing that he will not be shut up in a hermetically sealed box with several guards between him and men who really want to talk business with him.

A Bill Without "Ticks."

Congressman Lamb of Virginia, chairman of the agricultural committee, was explaining the agricultural appropriation bill. "We have no politics in the agricultural committee," he said. "It is all business ticks, boll weevil ticks, conservation ticks, cattle ticks, investigation ticks and ticks that breed close by the Everglades in the 'sunny south.'"

The last allusion was to the allegations about agricultural department employees in the Everglades drainage project, which is being aired before one of the committees of the house.

Only an Echo.

The senators often have a habit of discussing a matter after it has passed or has been referred or gone over for a day. Such was the case in regard to the Poindexter resolution to investigate the Lawrence strike.

"What has become of the resolution?" asked Senator Heyburn after it had gone over and who wanted to cut off the discussion.

"It has gone over," replied Vice President Sherman. "It is not here."

"And the echo remains," remarked Heyburn sarcastically.

"The echo remains," echoed Lodge in the same manner.

And discussion followed on the subject for nearly another hour.

London Hurt the Cause.

New York, March 11.—The Countess of Warwick, who arrived from England on the Mauretania to lecture in the United States and Canada, assailed her fellow countrywomen who have been rioting in London in their fight for suffrage. Lady Warwick is a suffragist and more particularly a Socialist, but she declared that the militant tactics of rioting women had hurt the cause.

"They have been mostly women who have been seeking notoriety," she said, "and they have been very stupid indeed. The destruction of property cannot be excused on the ground of righteousness of any cause."

SEVEN LIVES LOST
IN WINNIPEG FIRESudden Explosion Buries Fire-
men and Spectators.

Winnipeg, Man., March 11.—Seven persons are dead, one is possibly mortally injured and a number suffered serious injuries as the result of an explosion during a fire in the rear of the Radford Wright company, limited, wholesale sash and door factory. Captain Dewitt and six firemen were turning hose on the back of the building, where the fire, supposed to be the work of an incendiary, had started in a lean-to annex, when the back wall was blown out, the little party going down in the wreckage, which also caught and overwhelmed several spectators and passersby.

Until the explosion came the firemen appeared to have the situation under control. For a time afterward it was a question whether the adjoining buildings, including the International Harvester company's big warehouse and the Stuart Machinery company's plant, could be saved, but the fire walls proved effective and with the help of the high pressure the plant was brought under control. Neighboring buildings, however, suffered considerable loss from water and smoke.

The cause of the explosion has not been determined.

PRUSSIAN MINERS TO STRIKE

Three Organizations Vote to Quit
Work in Ruhr Region.

Essen, Rhenish Prussia, March 11.—A strike throughout the Ruhr region was overwhelmingly voted at a meeting of delegates representing the three coal miners' organizations. The Christian unionists, who were not represented at the meeting, have issued a protest against the strike, but it is said they will approve the demand for increased wages and eventually may join the movement.

Eighty different meetings were held in the various mining districts and not less than 150,000 miners attended. Much enthusiasm was manifested and the men enthusiastically favored a fight to a finish with the employers. All the meetings were orderly. The official notification of the proposed strike appeals to the miners to be law abiding and "strictly avoid liquor."

TAFT IS STRONG IN IOWA

Has Twenty-four of Thirty-nine Dele-
gations.

Des Moines, March 11.—Twenty-four of the thirty-nine counties in Iowa that have held Republican conventions have decided upon solid Taft delegations to the state convention in Cedar Rapids April 24, according to figures compiled here. Eight counties have named solid Cummins delegations and one, Page county, elected delegates instructed for Roosevelt.

EIGHT THOUSAND

STRIKERS MUST BE SHOWN

Seek Information on Terms of Offered
Increase.

Lawrence, Mass., March 11.—Although leaders in the textile workers' strike express the belief that the end is close at hand, with a considerable victory for the strikers already assured by the granting of general increases in wages, there was no letup in preparations for continuing the struggle. Speakers at nearly a score of meetings laid stress upon the necessity of maintaining their strength. The leaders planned to have more pickets on duty than at any time since the strike was begun, two months ago.

A strikers' committee probably will meet the American Woolen company's officials in Boston. The increase of 7½ per cent in wages announced by this company finds favor with the strikers generally, but the leaders want to know in terms of dollars and cents the operation of the maximum and minimum provisions of the new scale.

HONDURANS WELCOME KNOX

Prominent Men Go From Capital to
Seaport to Convey Greetings.

Acajutla, Salvador, March 11.—The American secretary of state, Philander C. Knox, and party arrived in the republic of Salvador. The cruiser Maryland reached here from Anapala, Honduras, and the secretary later proceeded to San Salvador.

The visit to Honduras, which lasted ever Friday and Saturday, was marred somewhat by the fact that it was found impossible to proceed to Tegucigalpa, the capital. A party of eight prominent citizens, including members of the cabinet, the chief justices and members of parliament, came to Anapala from Tegucigalpa, a round trip of five days by mule, in order to have luncheon with the American secretary.

REDUCES FOREST RESERVE

President Eliminates 73,160 Acres in
Montana.

Washington, March 11.—President Taft has signed a proclamation eliminating approximately 73,160 acres from the Jefferson national forest in Montana, the land having been found of no value for forest purposes, being mainly of open grazing land and land of agricultural value. The lands lie mainly along the southern and eastern boundaries of the Little Belt division of the forest. They will be restored to settlement and entry on such dates as shall be fixed by the secretary of the interior.

FORTIFY EUROPEAN QUARTERS

Soldiers Refuse to Disarm and Many Barricades Have Been Erected. Forty Thousand More Native Troops Are Stationed in Canton and Their Loyalty Is Subject to Grave Doubt.

Hongkong, March 11.—Eight thousand soldiers have revolted at Canton and serious fighting has ensued. All the shops in the old and new city of Canton were closed Saturday. Many persons are reported killed or wounded and thousands of civilians are fleeing.

The soldiers have refused to disarm and barricades have been erected from the admiralty as far as the Taishtow (East gate) station. Forty thousand troops are quartered in the city and the loyalty of most of them cannot be relied upon.

A general proceeded to Shameen and notified the European soldiers of the revolt. The gates of the quarters were immediately closed and strengthened.

Solemn Ceremony as He Takes Oath
as Provisional President.

Peking, March 11.—In the new foreign offices Yuan Shi Kai was formally inaugurated provisional president of the republic of China in the presence of a great gathering of delegates, provisional envoys, military and naval officers and other prominent personages. Many foreigners attended the ceremony, but the legations were not represented.

Yuan Shi Kai, who was in military uniform, read a declaration promising faithfully to develop the republic, to observe the constitutional laws and to retire when the national assembly appointed a permanent president. The ceremony was solemn—Almost pathetic—and typical of China's transition.

Most of those who assembled were attired either in uniform or European dress. The only touch of orientalism was the presentation of the scarfs to Yuan by two yellow robed lamas.

The Sherman will proceed for Nagasaki and the Warren will return from Taku to that port, where she will pick up the recruits. This will bring the total number of American troops dispatched from Manila to China up to more than 1,200 men.

Miss Morgan and Judge Lindsey Also
Call on Colonel.

Oyster Bay, N. Y., March 11.—Medell McCormick of Chicago, who is managing the Roosevelt campaign bureau in Washington, came to Oyster Bay and brought Colonel Roosevelt the latest reports from the front. Mr. McCormick had nothing to say except that the campaign was progressing in a manner satisfactory to him and it is believed there was no longer any doubt that Colonel Roosevelt would have a majority of the delegates to the Chicago convention.

Colonel Roosevelt had several other guests at dinner. Among them were Judge Ben B. Lindsey of Denver, Miss Anne Morgan, daughter of J. Pierpont Morgan, Miss Elizabeth Marbury and Alexander Cochrane, a New York manufacturer and yachtsman.

HINTS AT SPECIAL SESSION

Governor McGovern May Summon
Wisconsin Legislature.

Madison, Wis., March 11.—Governor McGovern has let it be known that there will be a special session of the legislature, probably in May, to meet the exigencies of the Black River Falls flood, relieve the necessities of the population of that town and also to take action on the water power question, since the supreme court ruled the law giving the state power over the water powers of the state to be constitutional.

The governor has not formally announced there will be a special session, but allowed it to become known that he eventually will call such a session, the call to be issued when he completes his study of the conditions.

MAY CALL EXTRA SESSION

But Deene First Must Be Assured
Primary Bill Will Pass.

Chicago, March 11.—Governor Deene authorized the statement that he would call an extra session of the legislature to enact a direct presidential primary law, provided that prior to the issuance of the call a pledge is signed by two-thirds of the members of the senate and house that they will pass a bill with the necessary emergency clause.

Ladies Musical Club

A very brilliant and well balanced
program was given by the Musical
club on Saturday afternoon.

The day was in charge of Mrs. H. G.
Ingersoll and Miss Alderman.

Mrs. Leila Stanton Sanborn who
has graced our club before, gave three
beautiful numbers on the violin. She
is always welcomed by a Brainerd au-
dience. Mrs. LaBar and Mr. Alder-
man in two vocal duets, were at their
best, and the piano duet by Mrs. In-
gersoll and Miss Alderman was an ex-
ceptionally brilliant number. The lit-
erary part of the program was a great
addition. Miss Long's paper on Home
Economics, was full of practical in-
formation. ***

SPECIAL ELECTION TO BE HELD TUES.

Citizens of Brainerd to Vote Yes or No on Bonding the County \$35,000 For

A NEW RIVER BRIDGE

In Northeast Brainerd—Polls Open From 6 A. M. to 9 P. M.—Where the Polls are

Tomorrow, Tuesday, March 12th, the city of Brainerd will vote at the special election called for the purpose of getting the vote of the county on bonding Crow Wing county for \$35,000 for the construction of a new bridge across the Mississippi river in Northeast Brainerd.

The polls will be open from 6 A. M. to 9 P. M. The polls in the first ward are in the Gardner building at the south Sixth street across the street from the postoffice. In the second ward voters will use the Congdon building on Main street. The third and fourth wards will use the hose houses. The fifth ward will vote at the Katz building on South Seventh street.

In the country districts the special election will be held in addition to the regular village and township elections.

Deerwood will vote on the wet or dry proposition, the town being wet at present and having two saloons. They will also vote on bonding the village \$10,000 for improvements.

Pegot will have two tickets in the field, a socialist and an old party fusion ticket. It is not known what issues are to be decided. Cuyuna and Jenks have nothing to disturb their serenity.

Fronton will elect village officers. There is no issue apparent here. Crosby will have two tickets in the field, one headed by the present Mayor M. F. Crosby and one by Capt. Anderson.

Brainerd's city election, being governed by the provisions of the charter, will not be held this year, but in 1913.

S. S. CONVENTION WAS A SUCCESS

Gathering Gives a Great Impetus to Sunday School Work in the City and County

LOCKER'S SPLENDID ADDRESS

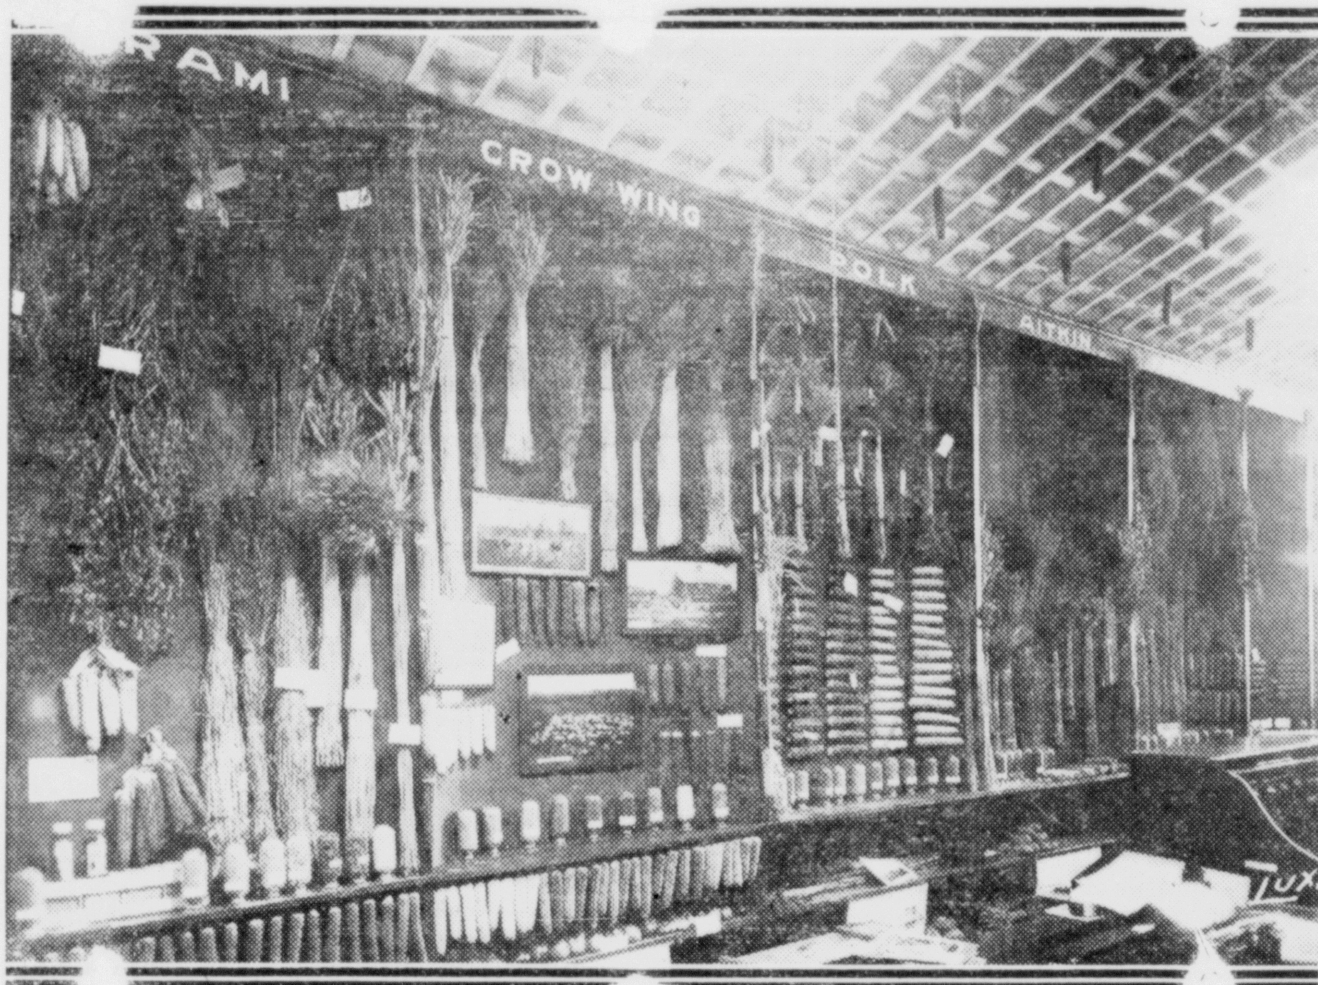

Credit Due Dr. Joseph Nicholson for Gathering Able Assistants About Him

The Sunday school workers of Brainerd received an impetus along the lines of Sunday school work yesterday that will not be soon forgotten and which will eventually modernize the work done in various departments of the Sunday schools of this city.

The attendance at the First Congregational church in the afternoon completely filled the church, and all who took part gave to their hearers some very fine addresses, and there was not a dull moment in the two hours' program.

Last evening the Seventh Street Norwegian Lutheran church was completely filled, with many standing, while dozens of people had to return home because they were unable to get in. It was one of the finest and most thoughtful congregations that ever assembled in the city, and will ultimately bring into the Sunday school a larger proportion of the adult membership of the church.

The speaker last night was Professor A. M. Locker, of St. Paul, formerly a high school principal, whose eloquent address last evening stirred the older element of the congregation to the needs of the Sunday school. Professor Locker's message pertained

Crow Wing County Wall Display at Northern Minnesota Development Assn.

to the forming of larger adult Bible classes in the schools; the fine work for the church which they were doing all over the country; the newer methods which were being introduced into all Sunday schools and which were bringing to the church excellent results. Professor Locker was given a fine hearing.

The musical part of the program last evening was of a very high order and added materially to the service.

Dr. Joseph Nicholson is the president of the Crow Wing Sunday school association, and great credit is due to him for gathering around him a staff of able assistants who are assisting him in pushing the claims of the Brainerd and Crow Wing Sunday schools as never before in their history.

PROMINENT WALL DISPLAY

Northern Minn. Development Association Exhibits at Minneapolis Attract Many

The Dispatch is indebted to the Minneapolis Journal for the two views shown of the Northern Minnesota Development association exhibit of products in Minneapolis. Occupying a prominent place is the exhibit made by Crow Wing county, the wall display being plainly seen in the center of the first picture shown.

More than 250 men daily have visited the permanent show of the Northern Minnesota Development association at 39 Third street South, Minneapolis, since its opening, and the attendance has been double of what the promoters looked for when they launched their exhibition scheme. Without exception the visitors are serious, sober minded men in search of information as to the soil and products of northern Minnesota for there is nothing in the exhibition to attract the frivolous or idle curious. The majority have shown such interest in the various county displays as to ask that additional literature be forwarded. Others again have taken away copies of every pamphlet and booklet kept at the headquarters and also have left the names of relatives and friends who are interested in land with a request that they be supplied

DEAD MAN IS NOT IDENTIFIED

Unknown, Aged About 65, Found in the Snow on Road Near Klondike Saturday Morning

PERCY COFFIN LOCATES BODY

Deceased Was Poorly Dressed, Hands Were Frozen—No One Knows the Stranger

The identity of the man found dead in the road 30 rods north of Klondike station remains a mystery. The body was found Saturday morning by Percy Coffin, a tenant on the George A. Keene farm at Klondike, who had loaded up his sled with potatoes and was on his way to Brainerd.

Mr. Coffin told a man, Carlisle, who is staying on his place, to go to Jule Jamieson near Crosby and telephone the news of the finding of the body to the coroner. Deputy Coroner D. E. Whitney, of this city, answered the call and went to Klondike on the Saturday afternoon train.

The body, says Mr. Whitney, lay 30 rods from Klondike in the wagon road north of the water tank on top of a small hill. The corpse lay face up. There were no marks of any kind to indicate there had been violence committed and the presumption was in favor of the idea that the man had come to his death from natural causes. The deceased had struggled in the snow. He had gotten up several times and had fallen down. His hands were frozen and he appeared to have been dead several hours.

He was dressed in a dark gray suit and wore blue overalls. On his head

BARROWS TOWNSITE WAS SOLD SAT.

Duluth and Eastern Capitalists Bought the Entire Holdings of the Townsite Co.

E. C. BANE NEGOTIATED DEAL

New Company Will Have Engineer F. A. Glass Estimate, Survey and Establish Grade Lines, Etc.

Duluth and eastern capitalists have bought the entire holdings of the Iron Range Townsite Company. On Friday evening the deal was closed whereby the parties interested disposed of the entire stock of the Iron Range Townsite Company. E. C. Bane, the real estate agent who put through the deal and J. P. Ernster went to Duluth and completed the transfer on Saturday.

The new company will have Engineer F. A. Glass estimate, survey and establish grade lines and do other engineering work. Plans are being prepared for buildings and other improvements which shall begin as soon as spring opens.

Barrows is located differently from any other town on the Cuyuna iron range, being situated between two large high grade ore properties on the south range. North of the town is the M. A. Hanna Co., of Cleveland, Ohio, which is now working three shifts of eight hours each. Work has been commenced on the third shaft and within a short time a large force will be employed and the Barrows mine will be one of the largest ships on the range.

E. C. Bane was appointed the Barrows representative of the company.

WISCONSIN COMMENT

Superior Telegram Refers to the Revoking of Seven Saloon Licenses in Brainerd

In an editorial on the saloon situation in Brainerd, the Superior Telegram, of Superior, Wis., says: "The city council of Brainerd, Minn., revoked seven saloon licenses last week on account of the saloons doing business Sundays and after the closing hour through the week. The proprietors had been warned, but gave no heed to the warning. Lawyer C. A. Russell, formerly of Superior, is reported to have made an 'impassioned plea' in behalf of some of the offenders, but the council was firm. One of the licenses, if not revoked, would have run until next November, and the others to various dates earlier, thus there is a considerable

IMPROVEMENTS AT L. M. KOOP'S STORE

Pattern Table With Desk Phone Arranged for the Use of Lady Customers

CLOAK CABINETS INSTALLED

Cabinets are in the Suit Department and are Dustless and of Great Convenience

Many improvements have recently been made at the L. M. Koop store, all having been planned and arranged for the convenience of the many customers of this popular establishment. When entering the store one ob-

serves at the left hand a pattern table with comfortable chairs where ladies may sit down and glance at the latest style patterns. For their convenience Mrs. Koop had added a desk telephone.

In the suit department the proprietor is adding a set of cloak and suit cabinets, of the latest design and absolutely dust proof. The cabinets are neatly painted and the interior is provided with electric lights. On the walls outside are large mirrors which will be of material assistance to ladies when trying on garments.

T. S. Mysen is engaged in painting the cabinets and they will soon be completed and in readiness to receive the latest creations in suits and cloaks. These innovations are but an indication of the many new features which the L. M. Koop store is about to introduce for the benefit of its customers, all tending to make it a pleasure to do shopping there.

Very Interesting

An event of exceptional interest is the engagement at the opera house Friday, March 15 of "The Lion and the Mouse." It has been said that the enormous business done by this organization has led to the cancellation of the contracts in many of the one night stands to accept time offered by the larger cities. The engagement in this city will be kept as Manager Brown has an iron-clad contract to this effect.

THE CROW WING COUNTY EXHIBIT

(Continued from page 3)

exhibit the Brainerd Daily and Weekly Dispatch are prominently on file.

The booths range in size from four to 12 feet in width and are all decorated in the green and white which is the color scheme carried out in the entire exhibit.

At the Union, Milwaukee and the Minneapolis and St. Louis stations, there are large signs directing travelers to the exhibition. Every effort will be made to attract visitors to the exhibition. Those who have been permitted to see the various products put into place attest to the fact that rarely ever has such a splendid exhibition of farm products been open to the public.

Pictures of the J. M. Elder farm near Brainerd make up one of the attractive features of the Crow Wing county exhibit. One of the large pictures shows an immense flock of sheep feeding on the so-called brush lands. This booth contains a fine lot of cabbages, says the Minneapolis Tribune, several varieties of onions and potatoes, besides samples of grain and grasses. There are some samples of iron ore in this booth.

In a short description devoted to each county the same paper says: "Crow Wing county is located in the central part of the northern section of the state. The land surface is rolling and was originally covered with a heavy growth of timber. A large part of this is still standing. The soil in the highlands is a sandy loam, but in the lowlands it is a black muck, vegetable mould, and in some places peat with sand or clay subsoil."

"The Cuyuna range, one of the rich iron ranges, runs through this county and already many mines are being put into operation. The Northern Pacific, the Minnesota & International and the Soo railways traverse this county, affording ample transportation facilities.

The cereal and vegetable crops have always been good. Dairying, livestock, poultry raising and fruit raising are carried on quite extensively here. Thousands of acres of school lands are still unsold here, and there is a little government land. Land can be purchased at from \$10 to \$30 per acre."

Keeps Him Posted.

"I suppose by this time you have more money than you know what to do with," said the old acquaintance.

"No," replied Mr. Dustin Stax, "I haven't more than I know what to do with, but I might be a little puzzled about it now and then if I didn't get a lot of helpful advice on the subject from mother and the girls."—Washington Star.

ONE MILLION DOLLARS FOR A GOOD STOMACH.

This Offer Should Be a Warning to Every Man and Woman.

The newspapers and medical journals recently have had much to say relative to a famous millionaire's offer of a million dollars for a new stomach. This great multi-millionaire was too busy to worry about the condition of his stomach. He allowed his dyspepsia to run from bad to worse until in the end it became incurable.

His misfortune serves as a warning to others.

Every one who suffers with dyspepsia for a few years will give every thing he owns for a new stomach.

Dyspepsia is commonly caused by an abnormal state of the gastric juices, or by lack of tone in the walls of the stomach. The result is that the stomach loses its power to digest food.

We are now able to supply certain missing elements—to help to restore to the gastric juices their digestive power, and to aid in making the stomach strong and well.

We know that Rexall Dyspepsia Tablets are a most dependable remedy for disordered stomachs, indigestion, and dyspepsia.

We want you to try them and will return your money if you are not more than satisfied with the result.

STORM WAS A HUMMER

Story of Blizzard 20 Years Ago Taken from Brainerd Dispatch Files

"The oldest inhabitant," says the Brainerd Dispatch, of March 11, 1892, referring to the big terrifying blizzard which the town and county experienced "is at a loss to recall to memory a storm parallel to that of Wednesday. For some days previous the weather had been warm and balmy, the snow had entirely disappeared from the street in the city and everything betokened the coming of spring, even to the appearing of scores of lumberjacks from the woods, where nearly all camps had been broken. But signs fail at all times and this was one of the failing kind.

"On Tuesday evening the clouds thickened and a mist which turned to rain began falling at 10 o'clock; at 2 A. M. the wind began to rise and snow took the place of rain, the howling, piercing north wind continuing throughout the next day with unabated fury.

"Such a storm was never experienced in this section, and at times it was impossible to see ten feet ahead, and the wind came from all directions at one time.

"Signs were demolished, storm sheds blown down, and huge trees in the parks snapped off like pipe stems. Business was at a standstill, trains were from two to ten hours late, and everything had the appearance of having been on a wild, mad spree yesterday morning.

"It is estimated that at least 12 inches of snow fell and the roads into the country are almost impassible, in some places the ground being bare and in others the snow is piled in drifts 10 feet high."

AT BAPTIST CHURCH

Rev. C. B. Hilton Preaches Tonight at the Union Religious Services

The second week of the union religious services will be held tonight and all through the week at the First Baptist church, and the speaker for tonight will be the Rev. C. B. Hilton. The services of last week were well attended with good results at the Presbyterian church, and it is expected that this week will yet see larger results and a still larger attendance.

The schedule for the week is as follows: Monday night, Rev. C. B. Hilton; Tuesday night, Rev. Charles Fox Davis; Wednesday evening, Rev. C. B. Hilton; Thursday evening, Rev. W. J. Lowrie; Friday evening, Rev. W. J. Lowrie.

The services will commence at 7:45 sharp, and there will be special solos and song services. Those in charge extend an earnest invitation to all to attend.

Special Notice

The "Get-Together" club will meet in the parlor of the First Congregational church tomorrow evening, instead of Wednesday. A very interesting program has been prepared. The special feature of the evening will be the "Kid Party" in which many of the members will take part. Everybody cordially invited tomorrow evening at 8 P. M.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address: F. J. CHENEY & CO., Toledo, Ohio.

Sold by druggists, 75c.

Take Hall's Family Pills for constipation.

An Epidemic of Coughing Is sweeping over the town. Old and young alike are affected, and the strain is particularly hard on little children and on elderly people. Foley's Honey and Tar Compound is a quick, safe and reliable cure for all coughs and colds. Contains no opiates. For sale by all druggists. mw

MUSIC AND DRAMA

"Foul Play" Pictures

Owing to the fact that there has been such a delay in presenting the last two and final chapters of that pretty English drama, "Foul Play," the first part of which was shown at the Empress theatre several weeks ago it's more than likely that quite a number have forgotten the plot, and that a few who have heard much of the pretty picture and failed to see the first part. For the benefit of these the management of the Empress offers a brief synopsis of the first chapter of "Foul Play."

The only son of a prosperous English gentleman graduates from Oxford with high honors. The father is proud of his boy's accomplishment, and has high hopes of the youth's future, for leaving Oxford college in high honors is indeed something to be proud of.

The father, however, is unaware of the fact that his boy had by constant gambling, not only spent his allowance but at the same time had contracted big debts over the gambling tables.

A tutor in Oxford, a very good friend of the young fellow, and the one upon whom the young man had depended for help in the examinations, asks his young friend for the loan of several pounds to start a college of his own. The young man remembers his gambling debts, already the parties that hold his notes threaten to send them to his father for collection. He is inspired with an idea and forges his father's name to a check for a large amount. The check is given to the unsuspecting tutor who gets it changed into money and gives his friend what is left over the portion that he had wanted to borrow. The tutor's indorsement on the back of the check leads to his arrest, trial and conviction.

At the finish of the first chapter he is led away to serve ten years in prison for a crime of which he was innocent, while the guilty youth remains silent. We are not going to tell anything of the rest of the story as we don't wish to spoil it for you and would advise that you pay a visit to the cozy little Empress next Tuesday or Wednesday.

Kelly Stock Company

Manager Brown has secured the Kelly Stock Company for the week beginning March 17, and the patrons of the opera house are promised a season of high class plays which have delighted audiences throughout the country. The following is from a Mankato exchange:

ec.d.od Uio2E

"The S. R. O. sign was hung out at Mankato Theatre last night. Twelve hundred people witnessed the presentation of the drama "Amy the Circus Girl," and the high class vaudeville between the acts, and many were turned away not being able to gain admission.

"Manager Griebel stated to the Daily Review this morning that he could have sold from two to three hundred more tickets if he had had the seats.

"Without any exception the Kelly company is playing to the largest business ever received by a repertoire company in Mankato. They are certainly giving the best of satisfaction. In the drama, "The Opium Fiend,"

"Tonight the company will be seen with an entire change of vaudeville acts."

Hallowell Concert Co.

It is seldom a musical organization of such pretensions as the Hallowell Concert company, of Chicago, makes a town of this section and all lovers of good music will without exception take advantage of its appearance in Brainerd next Thursday night, March 14. In all sections of the country, the organization of ten artists has been greeted with large houses and return dates have been eagerly sought. Mr. J. Lester Haberkorn, the abritone soloist, is a great favorite on the concert stage and with the harp violin, cello and trombone soloists, presents a program of great artistic value.

The company will arrive in the city in the morning and have consented to give a school children's matinee at 4 o'clock when a nominal fee of 10 cents will be charged to all school children. This is an exceptional opportunity and one which parents should see that their children take advantage of. The evening concert will commence at 8:15 o'clock and popular prices will prevail.
